ALPOLIC®/fr LT

 **MITSUBISHI PLASTICS**

URL <http://www.apolpic.com>

ALPOLIC®/fr LT *Reversible*

Note: "Reversible" has each individual color on both sides. For example, R-1 is a combination panel of Pure White P and Silver P.

ALPOLIC®/fr LT *Single*

Legend : Bottom of each color chip indicates color code, color name and gloss rate respectively.

ALPOLIC®/fr LT *Stone*

ALPOLIC®/fr LT *Timber*

Note:

- Color chips herein may differ slightly from actual colors due to attributes of printing. Please confirm actual color with the color sample.
- Gloss rate is indicated by extension to color name: Matte or 30% to 90% gloss. Matte is derived from a unique coating technology, in which microscopic wrinkles are formed over the coated surface and accordingly, it shows the appearance of Matte.
- Custom colors and custom gloss are available in all types of finishes, subject to the respective minimum quantity. If you mention the custom color, please specify the gloss rate as well.
- In case of Metallic Colors, Stone and Timber-patterned finishes, the color may vary slightly between production lots. Therefore, we recommend that you place total requirement in one order, to ensure color consistency for these colors.
