

WoodEx™
Timber-Look Aluminium

Product Introduction

WoodEx™ is manufactured from 100% solid aluminium with a timber finish, ensuring you can utilise the beauty of timber on any project and still remain compliant with BCA fire regulations. There are a number of different profiles under the WoodEx™ brand, all designed to simplify installation whilst also maintaining a long-lasting architectural appearance.

Benefits of the WoodEx™ Timber-Look System

Prefinished for extra protection

Virtually maintenance free

Non-combustible as per BCA AS1530.1 and AS1530.3

Durable and long-lasting

Versatile and adaptable

Stocked locally in Australia

Sustainable and eco-safe

Lightweight and strong

Material	Profile	Weight per L/M	Weight per m ²
Aluminium <i>Alloy - 6063 Temper - T5</i>	V-Join Cladding (160mm coverage)	1.28 kg	8 kg
	Castellated Cladding (160mm coverage)	1.69 kg	10.56 kg

WoodEx™ Battens

WoodEx™ Battens were designed to help create the much-loved timber batten look, but with the added benefits of concealed fixings and greater spans.

Suitable for: Internal and external applications.

Applications include: Feature cladding or ceilings, screening, gates, fences and balustrades.

WoodEx™ can be used vertically or horizontally to add a contemporary stylish look to your building.

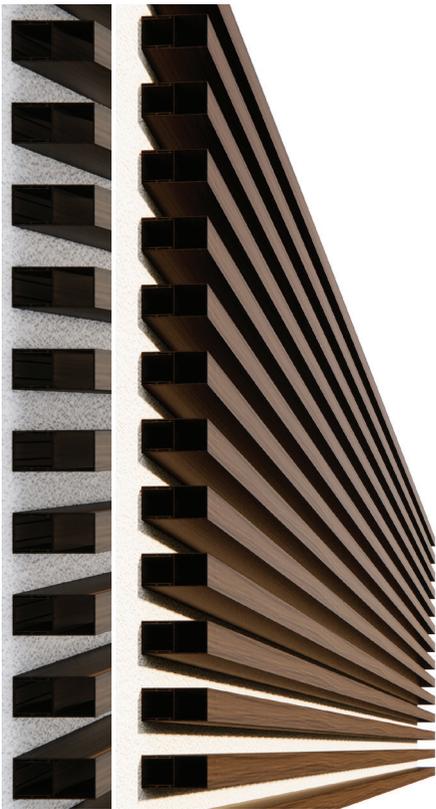

WoodEx™ Cladding

WoodEx™ Shiplap Cladding systems were designed to replace timber cladding, with the benefits of reduced thermal movement and a simplified concealed fixing method for boards and proprietary trims.

Suitable for: Internal and external applications.

Applications include: Cladding, feature walls, ceilings and garage doors.
