## about siniat

Siniat's innovative lightweight construction systems are designed to provide smart, active technology solutions for fire, water, sound and impact resistance as well as space-giving, air-cleaning, acoustic and aesthetic design solutions for all construction projects. Siniat is committed to providing excellent technical service and sales support to continually improve the quality of current products and systems, and to identify innovative products, systems and solutions.

With plants in Matraville (Sydney) and Altona (Melbourne), manufacturing plasterboard and compounds; and metal profile lines in Beenleigh (Brisbane); Siniat supplies high quality sustainable building materials through a national franchise PlastaMasta network.
